PROFILE

Informatics graduate (GPA 3.89) and BNSP-certified Junior Web Developer with two internships building production web features in Laravel, plus frontend projects in React.js, Next.js, and TypeScript. Built DASSCare, a mental health screening web app used by real users and validated with professional psychologists, and an Excel-to-database import feature that reduced manual data entry for a government agency.

EDUCATION

UPN "Veteran" Jawa Timur | Informatics Major Surabaya
Bachelor of Informatics August, 2022 - September 2026
Cumulative GPA: 3.89/4.0

NON-FORMAL EDUCATION

Bangkit Academy Surabaya
Android Developer September 2024 - December 2024

- Developed a machine-learning-powered mobile application as part of a collaborative development team using Kotlin.
- Integrated machine learning functionality into the application to support its core user features.
- Collaborated with team members to integrate individual modules into a unified application.

WORK EXPERIENCE

PT. Wira Sandi Jakarta
Software Developer Oktober 2026 - Now

- Melengkapi data master (client, lokasi/unit, jabatan, departemen) di HRMS.
- Membersihkan dan memvalidasi database karyawan di Excel, seperti NIK, email, data ganda dan format data.
- Merancang dan mengembangkan website company profile PT Wira Sandi untuk memperkuat branding digital perusahaan.

PT. WINNICODE GARUDA Bandung (WFH)
Full-Stack Developer Intern Feb 2025 - June 2025

- Developed and maintained a company website using Laravel, implementing and refining web features based on project requirements.
- Performed debugging and testing to identify and resolve functional issues and improve system reliability.
- Created technical documentation and development reports to support system maintenance and knowledge sharing.

Dinas Komunikasi dan Informatika Tenggarong
Programmer Intern July 2024 - August 2024

- Developed an Excel-to-database import feature to streamline data entry and reduce manual data processing.
- Collaborated with senior developers to ensure system features were properly implemented and tested.

PROJECTS

DASSCare - Mental Health Screening Web Application

- Developed a web-based mental health screening system based on DASS-21 scoring rules.
- Implemented responsive user interfaces for questionnaire, results visualization, and screening history used by real time users.
- Collaborated and communicated with professional psychologists to understand, validate, and translate psychological assessment requirements into system logic.

ApplyTrack – Job Application Tracker

- Built a full-stack web app for job seekers to track applications, interview schedules and hiring progress in one place.
- Developed an analytics dashboard with a hiring-funnel view, response rates, and reminders to follow up on applications that haven't received a reply.
- Secured accounts with email verification, Google sign-in, password reset and login lockout protection; supports Indonesian and English.

CERTIFICATIONS

- Junior Web Developer (BNSP)
- Android Intermediate (Dicoding Indonesia)

ACHIEVEMENTS

- Best Speaker at Seminar Nasional Saintek (Universitas Terbuka)
